

MINT Service Deliverables: Cisco DNA Center - Assurance Use Case

Delivery Type: MINT Sample 5-day Mentored Install

Why Skyline?

Skyline Advanced Technology Services (ATS) is an exclusive Cisco MINT Service Partner.

We proudly participate with Cisco in support of their Mentored Install Network Training (MINT) initiative to provide customers with hands-on training while successfully deploying Cisco Intent-Based Networking solutions.

As a MINT partner, we:

- Have undergone rigorous training and validation by Cisco's technical marketing engineers (TMEs) and Global Partner Organization engineering teams.
- Have extensive experience deploying Cisco Intent—Based Networking solutions.
- Can escalate issues directly to Cisco for quick resolution.
- Can help you quickly become self-sufficient in Cisco Intent-Based Networking deployments to increase revenue.

For an in-depth discussion regarding your technical and staffing needs, our team is with you every step of the way.

Description

This sample overview of service deliverables is intended to give you an understanding of what to expect from a mentored install of the Campus Network Assurance use case. The specific deliverables and quantities are flexible and can be adjusted based on your needs. In order to develop an accurate scope of work and quote, you will need to schedule scoping session to thoroughly review your requirements.

Estimated Price

The Assurance mentored install sample scope below is estimated to require a quantity of 5 MINT SKUs (ASF-EN1-G-NW-DNAC). Each MINT SKU is equivalent to one (8-hour) day of labor and costs \$2,948 list price. The total estimated price for this service is \$14,740 list price.

Prerequisites

Ensure all necessary equipment is racked, stacked, cabled, and powered-up prior to the kick-off. Upgrade the network devices to the required software version with necessary DNA software licenses.
